OVERVIEW

A reading hall of teak, marble and light

Solid teak throughout the joinery, white Carrara marble, the carved ivory coffered ceiling and the brass and crystal drum chandeliers. Every Islamic pattern - the etched star glass of the portal, the carved inlay panels of the showcases and counters and the strapwork frets of the reading tables - is taken directly from the model geometry. Every item follows the SK303 furniture booklet of 10 November 2026 and is placed to the latest furniture layout.
